

100% Environmentally Friendly

Clack In & Out Valves

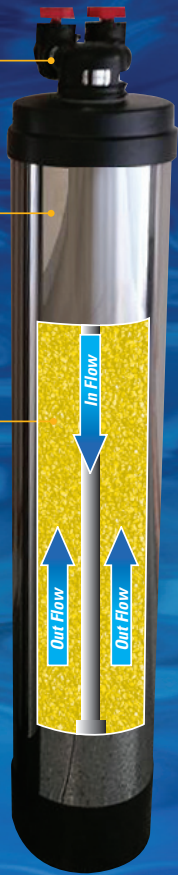

100% maintenance free.

Solid Tank Construction

The tank is made of polyethylene surrounded by fiberglass with a polished stainless steel outer sleeve.

Scale Prevention Resin

Treats hard water and removes existing scale from pipes by going after Calcium and Magnesium ions.

This is your answer to your whole house water conditioning needs without the use of costly potassium or salt.

Treat your hard water & Eliminate scale

What are the benefits?

- Great tasting filtered drinking water for your entire home
- Treats hard water and removes existing scale from pipes
- 100% Maintenance Free
- No Salt / Brine Water Waste
- Safe for You and the Environment
- Great for tank and tankless water heaters
- No Electricity Needed
- No Drain Lines Needed

5 Year Warranty on Clack In & Out Valves
10 Year Warranty on Tanks

Note: All tanks come with stainless steel covers.
