HydroMagnetic

Clack Digital Valve

100% maintenance free.

Solid Tank Construction

The tank is made of polyethelene surrounded by fiberglass with a polished stainless steel outer sleeve.

Magnetic Module

Tames the hardness of water by reversing the polarity of water molecules.

Granular Activated Carbon

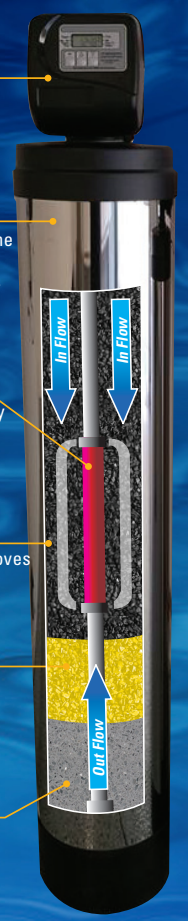
High grade coconut shell. Removes chlorine, organics, and odor. Improves water taste.

KDF 55

Prohibits bacteria growth and removes over 98% of dissolved lead, mercury, arsenic, and other heavy metals.

Quartz Filter

A "Totally Green" product that saves water and money through higher cleaning capabilities.



100% Environmentally Friendly

Whole House Water Filtration System

Sparkling Fresh Water

Our conditioner refines, filters, clarifies, and polishes your own tap water, making it crystal clear and odor free as any Mountain Spring bottled water. It also removes bacteria, environmental pollutants including detergents, iron, and other suspended matter.

For environmental control of your household water supply, you can't go wrong with a HyrdoMagnetic Water System.

What are the benefits?

- Pure clean water
- No Salt
- Superior Design and Construction
- Safe for You and the Environment
- Less than $10 per year in electricity to operate.

5 Year Warranty on Clack Digital Valve
10 Year Warranty on Tanks

MADE IN U.S.A. PROPECT
